14.5	Trails Paved (Miles)
13	Trash Barrels
Yes	Visitor/Interpretive Center

Acres: 161.764

Park Type: Special

**Council
Person:** [Ray Holt](#)

History: In August 1990, the City of Jacksonville applied to the Department of Environmental Protection (DEP) for acquisition of an abandoned railroad corridor. In December 1992, the abandoned railroad corridor was purchased from CSX Transportation Inc., through the Florida Greenways and Trails Program. This trail is part of a nation-wide, federally initiated "Rails to Trails" program designed to turn abandoned railroad lines into "linear parks". The Jacksonville-Baldwin Rail Trail is a 100 foot wide Right-of-Way (ROW) currently extending approximately 14.5 miles from Imeson Road in Jacksonville to the Town of Baldwin. A 12' wide paved trail currently exists for hikers, bikers and roller-bladers to enjoy. An equestrian trail parallels the paved trail. The ROW is flat and passes through rural areas with abundant plant life, wildlife and trees. The trail is contiguous with the Camp Milton Historic Preserve, which serves as a mid-point trailhead.

Acres: 288

Park Type: Community

**Council
Person:** [Ray Holt](#)

History: The Property is located off of Normandy Blvd. and Pine Street. The large land tract of 288 acres was historically used as a logging site before the City acquired the land in 2002 through Councilmember Warren Alvarez. It is a beautiful site with many wetland areas, which limits the use of the Park. In 2007, the entire site is undergoing the Master Plan Process to include overflow parking to the existing ball fields located off of Normandy Blvd., possible R/C car racing and Long liners site.

Rail Trail Buffer

14331 Old Plank Road [Mapit](#)
Jacksonville, FL 32234

Acres: 491

Park Type: Preservation

**Council
Person:** [Ray Holt](#)

History: The Jacksonville Baldwin Rails to Trails Buffer Preserve (FCT Grant No. 01-120-FF1) and included the following properties: Scarborough, Block, Old Plank Land Trust, Garner, and Campbell. . The Forbess and Walker properties were purchased with the help of an FCT grant (FCT No. 04-052-FF4). The conceptual site plan in the FCT management plan for the Scarborough and Block properties shows hiking, biking, and equestrian trails throughout the properties. Parking lots are also shown on both properties to give access to the Rail Trail. Picnic pavilions and wildlife observation platforms are also included. The conceptual site plan for the Forbess and Walker properties proposed an equestrian cool-down facility, restrooms, picnic pavilions, a horseshoe pit, a volleyball court, a parking area, an equestrian trail, a hiking trail, a biking trail, and upland and wetland restoration.
